**ME**

---

I live for my passion. I love every aspect of motion design. Throughout my career I have made it my mission to pay attention to detail. My drive to create amazing work has pushed me to work with a variety of multimedia artists from music artists to traditional artists from all over the world. From North America to the Middle East. I aspire to work with a team that shares my passion and enables me to be creatively free. I look forward to the journey ahead and am always interested in teaching and benefiting from others. I am very appreciative of every opportunity I get. Every chance I get to create. I learn something new and further perfect my craft.

**EXPERIENCE**

---

**Motion Designer · Starbucks**  
7/16 - 11/16

In a contract role working directly with the Starbucks Coffee Master team to create 2D explainer/educational videos with Adobe After Effects and Adobe Illustrator. Role included creating storyboards, style exploration, and briefing clients.

**Freelance Motion Designer · World Famous Seattle**

While collaborating with the team at World Famous Inc. my primary responsibility was layout and animation. Working off of T-Mobile's guidelines and storyboard, we were tasked to create T-Mobile promos that were displayed on screens of all shapes/sizes in Times Square. New York.

**Freelance Motion Designer · Getty Images Seattle**

Freelancing with Getty Images I was in charge of animating an infinite library of illustrations to be used on Getty's own Apple Sticker Pack. Working with such a restricted medium proved to be a challenge but was easily streamlined once I established an organized workflow through Illustrator.

**SKILLS**
